

WON'T BE DONE

KYSSINGER

This sunny laugh is not innocent
There's something about it you never share
Somehow I don't think I should ever fake to compensate

Oh was it something I did not do ?

Honey, I won't fight at all.
You know what we've done.

I won't be done until I
Have had three kids in two short years. Done.
Got the meaning of Twin peaks ending
Have been lipsticked by Penelope Cruz

I won't be done until I've
seen the Belgian team win the world cup.
Wrapped my head around Pyramid Song
Played a full set twice at Glastonbury

FLIRT WITH THE QUEEN

KYSSINGER

Ever think of what your life could have been ?
All the things that you could have done

Ever thought of the decisions you've made ?
Would you now make the same ? Would you now make the same ?
Yeah it's something i know all too well.

**I dont wanna faint
I don't wanna choose
I can't think too much
Makes me so confused, your what-ifs.**

You said it's better to build on a mirror to end up with twice what you got.

**I don't wanna faint
I don't wanna choose
I'm better off**

Ever think of all the cool things you've done
And all the cool things you'll do
Like meeting Eva or Dua to begin with. Oh

No i will not kneel to a King
Let me rather flirt with the Queen.
Might have lost my manners but not my wit.

ALWAYS RIGHT

KYSSINGER

Drifting away in a city of wonders
Cuz in my head, things ain't so easy
I'd love to stay but it's robbing my future
Ain't got much time for no-one, it's always the same.

Was it enough, was it too much? I don't know
I wanna stay, but I'm away

**Open up the doors, tell me what you see.
Is it you is it me, don't know
Look into my eyes, d'you see what I see ?
There's nothing left here for me**

They say i should calm my emotions.
But everyday, questions are the same.

I don't dont don't wanna be there, or see this.
'Cuz Everything is such a mess
Don't want your daily routine
What if you gimme some more time, once again

Is it enough, is it too much ? Well who knows ?
They told me stay, but I'm away

**Open up the doors, tell me what you see.
Is it you, is it me, who knows ?
Look into my eyes, d'you see my interest ?
There might be something here for me**

Don't look back. It's alright.
Tell me, who do you want to impress ?
What are your fears & distress ?

ATOMIC SMILE

KYSSINGER

There's something 'bout you baby
Your eyes are telling lies
The more I try to get you
The less I make you mine

I'm crossing my fingers, I pray to all the gods.
That smile, i swear, is the only thing i wish i had

There's something about you baby

Such an atomic smile
Your eyes are like a sunset
And they are burning mine.

**Would you have some time for someone like me ?
Please just be honest. Please just be honest
Could we meet somehow a minute or a day ?
Please just be honest. Please just be honest.**

There's something 'bout you baby
Something i can't define
The more I try to get you
The more i want you bad

Wild & rough, i'm defeated before the fight.
There's something about you that no one could ever describe.

WHERE TO START **KYSSINGER**

I don't know where to start
My education fights my heart
I won't hide, no I won't lie.
Got two days to free my mind

Ma & dad we got to talk
Something I think you should know
Found out something 'bout myself
Loving someone just like me

She so sweet. It's kinda fun.
Cuz it's something new...something new for me.. For me.

**No, I never fell in love. Didn't tell no one. Wish I had known.
Now, I feel free to say. Ive waited for too long. I should have known.**

I don't wanna walk, I don't wanna fear,
I don't wanna fake, I don't wanna bleed.

Need to talk, I need to know
Will people love me even though
I don't care 'bout what they say
Why would people care anyway ?

She so sweet.
It's kinda fun, when I think of all the guys that chased me..
It's new for me, it's new for me and now. Does anybody feel the same ?

**No, I never fell in love. Didn't tell no one. Wish I had known.
Now, I feel free to say. Ive waited for too long. I should have known.**

I don't wanna be loved in the way that you want.
I don't wanna fake for your approval.

Love is right here in me, right here in me, right here in me.

LIFE IS MAGIC

KYSSINGER

Trying it on to start a fight
Tell me all the words you've ever wished to write
About all those nights burning with a fever
Cuz I don't think you're *your* best self when you're on your own.
Not at all. Not at all.

**Stay with me. Nothings wrong. Feel it's killing me for real.
We should talk, can we ?**

Where were you ?
Where to find ?
Why don't you lie ?

Where were you ?
Why don't you try ?
Cuz I need

MAD GIRLS & SAD MEN

KYSSINGER

I don't think you wanna meet my true self.
In this uptight world there is no room for me.
All my madness I can't hide
And that voice within my head
Tells me not to live like I've already died.

I know, you're paralysed.
There's nothing you're not afraid of.
Can you feel the vibe in my head baby ?
I just wanna burn it like this song.

In your head now.
Can you switch off ?
No one does it like I do.

Pale grey people, all dressed in blue.
In the morning, they walk right through.

Once again time.
Turns you all cold
But I will not be fooled..
